

# Accession agreement

## Between the two parties:

1. Ecotrel asbl, a non profit making association under Luxembourg law, whose headquarters are situated at n°11, boulevard du Jazz, L-4370 Belvaux, represented for the purposes of this convention by its director Mr Andy Maxant, duly authorised to do so. The Association will hereafter be referred to as Ecotrel.

**and**

2. The firm .....  
registered under .....law, and whose  
headquarters are located .....  
.....  
represented for the puposes of this agreement by .....  
its....., duly authorized to do so. This firm  
will hereafter be referred to as the Co-contractor.

# THE FOLLOWING AGREEMENT HAS BEEN ESTABLISHED:

## ARTICLE 1: Definitions

In this agreement, the following definitions apply:

"Relevant Authority": Administration for the Environment, department for Strategy and Concepts.

"Accession agreement": This document, signed and complete with its annexes and any attachments agreed to in advance.

"Recycling fee": The financial contribution, as defined in the statutes of Ecotrel, that the Co-contractor must pay in order to fund the activities of Ecotrel.

"Waste Electrical and Electronic Equipment (WEEE)": The Electric and Electronic Equipment that, according to article 4 (6) of the modified law of March 21, 2012 about waste management, qualifies as waste.

"Household WEEE": the WEEE from households, commerce, industry, institutions and other, which, by its nature and quantity, is similar to household refuse.

"Ecotrel": The association exercising the function of managerial body. The statutes of Ecotrel were published in the "Mémorial" of 27/04/2004.

"Electrical and Electronic Equipment (EEE)": Any of the Electrical and Electronic Equipment listed in appendix 1. This list may be revised annually by Ecotrel.

"Active member": The Co-contractor whose headquarters are located in the Grand-Duchy of Luxembourg.

"Acceding member": The Co-contractor whose offices are located outside of the Grand-Duchy of Luxembourg.

"Put/place on the market": The act by which Value Added Tax is payable for the first time in the territory (of the Grand-Duchy of Luxembourg).

"Trade-in bond": The funding of the collection from selective collection points (for household WEEEs) or from a sorting and grouping centre (for WEEEs from users other than households), of the processing, of the recovery and of the non-pollution-causing elimination of WEEEs.

"Law of June 9, 2022": The law relating on waste electrical and electronic equipment and its future modifications.

"Territory": the territory of the Grand-Duchy of Luxembourg.

"Processing": any operation that follows the arrival of WEEE in the pollution control, tearing down, crushing, waste recovery or preparation-for-removal facilities, as well as any other operation carried out with a view to the re-use and/or removal of WEEE.

## **ARTICLE 2: Subject matter of the agreement.**

The Co-contractor agrees to accede for all EEEs that he placed on the Luxembourg market and covered by the law of June 9, 2022, to the WEEE management and processing system established by Ecotrel. The Co-contractor agrees to pay the recycling fee agreed to below, in order to enable Ecotrel to carry out its function.

By its adhesion, the Co-contractor entrusts to Ecotrel, which accepts, the execution of the Trade-in bond for which it is responsible under the terms of the law of June 9, 2022, and commissions Ecotrel to undertake all the actions necessary for the execution of the Trade-in bond, together with any other obligations for which it is liable as Producer or Importer in the context of the law of June 9, 2022.

## **ARTICLE 3: General provisions.**

**§1.** Members are accepted by the Board of Directors by simple majority of votes as stipulated in article 14 of the statutes of Ecotrel.

**§2.** Active members are obliged to :

- Join previously a federation dependent on the "Confédération luxembourgeoise du Commerce" (where the member belongs to the "Chambre de Commerce") or on the "Fédération des Artisans" (where the member belongs to the "Chambre des Métiers").
- or pay an annual fixed contribution as the acceding members as determined under §4 of this article.

**§3.** The Co-contractor is considered a Producer as defined in article 2, paragraph 14 of the law of June 9, 2022 regardless of the address of the Co-contractor's headquarters, its billing address and the place from which the EEEs are delivered to clients located in Luxembourg.

**§ 4.** Acceding members who sell directly to Luxembourg users must pay an annual fixed contribution determined as follows:

- €25 exc. VAT where their annual contribution relating to their sales to Luxembourg users is up to and including €250;
- €50 exc. VAT where their annual contribution relating to their sales to Luxembourg users is between and including €251 and €500;
- €100 exc. VAT where their annual contribution relating to their sales to Luxembourg users is between and including €501 and €1000;
- €200 exc. VAT where their annual contribution relating to their sales to Luxembourg users is between and including €1001 and €2000;
- €500 exc. VAT where their annual contribution relating to their sales to Luxembourg users is above €2000.

The annual fixed contribution is payable at the beginning of the year for the current financial year. It is submitted to retroactivity. The annual fixed contribution is reviewed annually by the General Assembly, on proposal from the Board of Directors.

## **ARTICLE 4: Coverage.**

§1. The EEEs mentioned in the list in appendix 1 and which are placed on the Luxembourg market are subject to the terms of the Accession agreement.

§2. The Accession agreement is applicable throughout the territory of the Grand-Duchy of Luxembourg.

## **ARTICLE 5: Duration.**

§1. The period of validity of this agreement is open-ended. Either one of the parties may terminate the agreement on the 31st December of each year, provided 12 months' prior notice. This agreement comes into effect on the 1<sup>st</sup> September 2005.

§2. This agreement is also liable to terminate prematurely in certain cases specified under article 14, §2 below.

## **ARTICLE 6: Recycling fee.**

### **§1. General considerations**

In order to enable Ecotrel to carry out its function, the Co-contractor will pay, as stipulated in the terms and conditions detailed below, a recycling fee for every EEE that it puts on the Luxembourg market starting at 01/01/2006 and for the rest of the duration of this agreement. The amount, the method of calculation and the disposition of the different recycling fees are determined by Ecotrel's General Assembly, based on proposals from the Board of Directors.

### **§2. Amount of the recycling fee**

The amount of the recycling fee is determined according to the statutes of Ecotrel. By way of information, Appendix 6 provides an overview of the recycling fees per group of EEE, valid on the date when this agreement comes into effect.

In case of modifications to the recycling fee, in accordance with the statutes of Ecotrel, the new amount of the recycling fee shall be communicated in writing to the Co-contractor.

### **§3. Modifications to the recycling fee**

Modifications to the recycling fee may be made only once per calendar year by Ecotrel.

Any new recycling fee is applicable to all the EEEs in the respective appliance categories entering the market from the first calendar day of the third month following the written notification by which Ecotrel informs the Co-contractor that the amount of the fee has been modified.

However, should the economic situation change unpredictably, the Ecotrel's General Assembly may decide at any time to change the conditions and amounts of the Recycling Fee payable by Active and Acceding Members.

#### **§4. Billing of recycling fees**

Where the annual fee payable by the Co-contractor is over or equivalent to 500 € excluding VAT, Ecotrel bills the Co-contractor, before the end of the month following each quarter, for the amount due in recycling fees for EEEs placed on the market by the Co-contractor during the previous quarter.

Where the annual fee payable by the Co-contractor is under 500 € excluding VAT, Ecotrel bills the Co-contractor, before the 31st March each year, for the amount due in recycling fees for EEEs placed on the market by the Co-contractor during the previous year.

This fee is based on the information supplied by the Co-contractor under article 9, §2 of the Accession agreement.

#### **§5. Payment of the recycling fee**

All payments are to be made by bank transfer to an account number provided by Ecotrel.

Unless otherwise specified in special contract terms, claims against invoices issued by Ecotrel must be made within 5 calendar days from receipt of the document. Claims must be justified, and the sole act of disputing an invoice does not induce a suspension in regards to payment of the amount due.

Invoices issued by Ecotrel to the Co-contractor must be paid in full and exempt from discount.

### **ARTICLE 7: Compensation for the Management of operations by the Co-contractor.**

**§1.** The Co-contractor may obtain compensation from Ecotrel for any WEEE for which it can prove to have itself taken on the management, as well as for processing costs, provided all the following conditions are observed:

- The Co-contractor must be the producer or the producer's official representative;
- Compensation is payable exclusively for WEEEs of the Co-contractor's own brand;
- Compensation is payable exclusively for WEEEs from non-household users;
- WEEEs for which compensation is payable must have been re-used or recycled;
- The total amount of compensation per annum that Ecotrel is liable to pay the Co-contractor may under no circumstances exceed the total amount already paid to Ecotrel by the Co-contractor in annual fees during the year in question.

Once a year, the Co-contractor will submit, together with the annual declaration or the final quarterly declaration for the year, the number of WEEE for which it managed the collection and processing during the previous calendar year.

**§2.** Ecotrel determines per category of appliance the compensation payable to the Co-contractor for managing the collection and processing of WEEEs.

Ecotrel may adjust the amount of compensation once per calendar year.

§3. The Co-contractor will provide Ecotrel with the necessary documents to support its request for compensation. On the basis of these documents, Ecotrel will decide whether the Co-contractor is eligible for compensation. If the request is rejected, Ecotrel will send a written justification of rejection to the Co-contractor.

§4. It is the Co-contractor's responsibility to inform the appropriate Authorities where necessary, of the way in which it ensured the respect of the various legislations in vigour for the WEEEs collected and processed under its supervision, and for which it has applied for compensation from Ecotrel.

§5. Ecotrel will refund the recycling fees as stipulated in article 6, §5, at the latest thirty days after receipt of the annual global declaration.

## **ARTICLE 8: Activities warranting reimbursement of the recycling fee.**

§1. Under the terms of the general conditions for reimbursement of the recycling fee, stipulated in appendix 5, the Co-contractor may claim the reimbursement :

- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs it subsequently exported. Reimbursement may be claimed from the date of exportation.
- Of recycling charges paid to Ecotrel or its supplier on acquisition of EEEs used in any way other than that stipulated in the official list of EEEs governed by the law of June 9, 2022. Reimbursement may be claimed from the date of sale or of the use of the new appliance.
- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs which it subsequently sells to a consumer, and for which the Co-contractor must pay foreign VAT, even though this transaction is not exempt from VAT in Luxembourg on account of exportation. Reimbursement may be claimed from the date of sale to the consumer.
- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs which it was subsequently obliged to return due to their defective condition. Reimbursement of the recycling charge may be claimed from the time when the Co-contractor is able to produce a credit note to prove it has returned the defective appliance.

§2. The Co-contractor may submit a request for the reimbursement of recycling charges it has paid, by filling in a quarterly or annual declaration form, depending on its declaration procedure.

§3. Ecotrel will refund recycling charges as stipulated in article 6, §5, at the latest thirty days after receipt of the annual global declaration.

§4. If no request for the reimbursement of recycling charges has been introduced by the 28th February of the year following the months for which a reimbursement of recycling charges may be claimed, the Co-contractor waives its right to reimbursement definitively and irrevocably.

# **ARTICLE 9: The Co-contractor's Obligations.**

## **§1. Accession Formalities**

Any Co-contractor wishing to subscribe to Ecotrel must sign the Accession agreement and submit it to Ecotrel.

It must also submit to Ecotrel the identification form in appendix 2. The Co-contractor must provide all the information requested on the identification form.

## **§2. The Declaration**

Where the Co-contractor's annual fee is equal to or more than 500 € excluding VAT, the Co-contractor agrees to inform Ecotrel, by the 21st of the month following each quarter, of the number of EEES it has placed on the market during that quarter. The first quarterly declaration must be submitted by the 21<sup>st</sup> day of the month following the date on which the Accession agreement comes into force.

Where the annual fee paid by the Co-contractor is less than 500 € excluding VAT, the Co-contractor agrees to inform Ecotrel, before the 28th February each year, of the number of EEES it placed on the market during the previous year. The first declaration must be submitted by the 28th February of the year following the year during which the Agreement comes into force.

The Co-contractor will use the homepage [www.ecotrel.lu](http://www.ecotrel.lu) or the declaration form available in Appendix 3 to communicate this information.

The form may be submitted by fax, post or electronic mail.

The Co-contractor is responsible for filling in the form completely and accurately.

## **§3. Annual attestation**

In cases where the Co-contractor makes quarterly declarations, the declaration for the fourth quarter of each year must be accompanied by an attestation certifying that the 4 declarations submitted during the year are accurate and complete. This attestation must be signed by the person legally responsible for the Co-contractor.

In cases where the Co-contractor makes an annual declaration, each of these declarations must be accompanied by an attestation certifying that the declaration is accurate and complete. This attestation must be signed by the person legally responsible for the Co-contractor.

## **§4. Transmission of information to Ecotrel**

As soon as it is asked to do so, the Co-contractor must provide Ecotrel with any information the appropriate Authorities may request in order to verify compliance with the obligations stipulated under the law of June 9, 2022.

## **§5. Changes to information**

The Co-contractor must inform Ecotrel immediately by post or electronic mail, of any modifications to its organisation liable to affect the implementation of this agreement.

When the Co-contractor ceases to market a given group of EEEs in Luxembourg, it must inform Ecotrel immediately.

When the Co-contractor markets a new group of EEEs, it must inform Ecotrel immediately.

## **§6. Mention to include on invoices**

When a client of the Co-contractor is VAT-liable, the Co-contractor must include a mention on the invoice stating that the EEEs were subject to a recycling charge.

## **§7. Ban on the sale of EEEs for which no recycling charge has been paid**

The Co-contractor declares that it will not introduce for sale on the Luxembourg market EEEs from any group of appliances it has not checked in appendix 2 of this agreement, without having first informed Ecotrel, as stipulated in article 9, §5 of this agreement.

## **§8. WEEE collection by active members**

The active member undertakes to return all WEEE from private households that was taken back as part of its activity without exception at selective collection points of problematic waste, the sorting and grouping centers subject to their own rules, if not to appeal to selected collectors contracted by Ecotrel for the separate collection of WEEE from private households. A list of contracted collectors is available on the website [www.ecotrel.lu](http://www.ecotrel.lu)

## **ARTICLE 10: Mandate**

An active member may authorize one or more foreign suppliers to fulfil its own obligation to declare the EEEs sold by that/those supplier(s). Each year, when it makes its annual or final yearly declaration, the active member will submit to Ecotrel the delegate communication form supplied in appendix 4.

Any supplier who accepts to act as a delegate must sign an Accession agreement with Ecotrel, thus becoming a subscribing member. Each year, it will provide Ecotrel with a list of the active members for which it acted as a delegate for the annual declaration or for the final quarterly declaration of the year.

## **ARTICLE 11: Ecotrel's Obligations.**

**§1.** Ecotrel agrees to act with due precaution and discernment to best meet the obligations incumbent on it by virtue of the law of June, 2022. Ecotrel is committed to obtaining and keeping ministerial approval, as mentioned in the law of June 9, 2022.

§2. Ecotrel is committed to responding to membership applications within 30 business days.

§3. Ecotrel is committed to safeguarding the confidentiality of any financial or commercial information the Co-contractor may entrust to it, or which Ecotrel may become aware of during the execution of this agreement. This commitment to confidentiality does not detract from the obligation Ecotrel has or may have in the future to provide information with respect to a legislation.

§4. Ecotrel is committed to constituting a list of all the Co-contractors. Ecotrel is authorized to use this list in full or partially, in its own publications and/or communications. With the exception of the name of the Co-contractor, any use Ecotrel may make of the brands, logos or other identifying elements belonging to the Co-contractors, even for the purposes of information, is only possible with written permission stipulating the conditions of use.

§5. A list of Co-contractors is available to the relevant authorities, as required by the law of June 9, 2022.

§6. Before the end of the month during which the Co-contractor submits information about the EEEs it has put on the market during the previous period, Ecotrel will issue the Co-contractor with an invoice for the recycling charges it must pay.

§7. Ecotrel will do its best to ensure its obligations are respected, but does not guarantee results in the context of its contractual agreements. In any case and for whatever reason, the amount Ecotrel is liable to pay as compensation to the Co-contractor, no matter what the tort in the event of a conviction, may not exceed the sum of the last payment made.

## **ARTICLE 12: Audits.**

§1. Ecotrel reserves the right to designate at any time, an external auditor or accountant bound by a professional secrecy agreement. This external auditor or accountant is authorized to carry out, where the Co-contractor is concerned, the necessary verifications to ensure that the information provided by the Co-contractor is true.

Ecotrel may also carry out such verifications, but the Co-contractor is in no way obliged to authorize direct access to Ecotrel.

§2. The expenses incurred by these verifications are the responsibility of Ecotrel, unless the recycling charges due, as calculated using the audited declaration, exceed by 10% or more the total amount of recycling charges paid. In this case, the above-mentioned auditing expenses are payable by the Co-contractor.

## **ARTICLE 13: Sanctions.**

§1. In the case of a late declaration, Ecotrel will send a written reminder to the Co-contractor, to submit the declaration no later than 1 month after its normal due date.

Before the end of the above-mentioned reminder period, the Co-contractor may address Ecotrel in writing, providing an objective reason for not submitting the late declaration, and mentioning the date by which the declaration will be submitted. If this is the case, the Co-contractor will owe only the interest legally charged for late payments.

§2. If, 1 month after the normal due date, the Co-contractor has not submitted the declaration and has not given an objective reason, Ecotrel will enlist the services of an auditor to establish the Co-contractor's declaration. The Co-contractor agrees to co-operate fully with the auditor, to allow the auditor access to its premises and all relevant accounting documents. The Co-contractor will be liable for all the charges relating to the auditor's intervention.

§3. Should Ecotrel notice any inaccuracies in the information it has received, the Co-contractor will be liable to pay both the unpaid recycling fee together with interest for late payment, and a fine equal to double the amount of the unpaid recycling fee.

§4. If the Co-contractor does not pay within the period allowed, it will be legally bound to pay forthwith and without further delay, the interest legally incurred for late payment, until the full payment of the amount owing.

§5. Should the other party fail to comply to the obligations under Article 9 § 8, Ecotrel shall make a formal demand to the other party by any suitable means. At the same time a minimum penalty of € 100 per ton of WEEE having passed through non-contracted collectors shall be charged. Upon failure to settle their situation within the time allowed by the notice, the Co-contracting party incurs its exclusion from the association. Ecotrel shall inform the administrative authority of any failure of the Co-contracting party.

## **ARTICLE 14: Termination of the Accession agreement.**

### **§1. No-fault termination**

The Accession agreement may be terminated by either of the signatories on the 31st December of each year, provided 12 months' prior notice.

During the notice period, both Parties remain bound by their contractual obligations. The Co-contractor must continue to pay the recycling fees for all the EEEs it puts on the Luxembourg market, up until expiry of the notice period.

To be recognised as valid, the termination must be notified by registered mail with signature on receipt, or delivered by a bailiff.

The notice period will begin on the first day of January following receipt of the termination notice.

## **§2. Termination due to failure to fulfil obligations**

Either party may legally terminate the Accession agreement at the other party's expense, without recourse to additional formalities or judicial intervention, if the other party has failed to fulfil the obligations it is bound to under the terms of the Accession agreement and if, within thirty calendar days of receiving formal notification from the first party of its intention to terminate the Accession agreement, the offending party has not taken remedial action.

The formal notification must be delivered by registered mail with signature on receipt. It must also expressly mention in full detail the reasons for such an action.

Where appropriate, the amounts paid by the Co-contractor will be unequivocally acquired by Ecotrel, or the amounts outstanding will remain definitively undue and subject to the right of either party, to file suit for damages.

## **§3. Notifying the relevant authorities of the termination of the Accession agreement**

In case of termination of the Accession agreement and in case of the loss of a member, Ecotrel must immediately inform the relevant authorities in writing.

Ecotrel is responsible for informing the Co-contractor that the personal information transmitted may be processed via computer. In this capacity, Ecotrel must draw particular attention to the terms of the General Data Protection Regulation (EU) 2016/679 concerning the protection of persons during the processing of personal information, and to the obligations binding Ecotrel. By its signature, the Co-contractor certifies that it is fully aware of the provisions made under these legislations and regulations, which ensure the protection of its rights.

## **ARTICLE 15: Non-negotiability.**

The Accession agreement is in no circumstances transferable, nor can it be executed by a third party, without the prior written consent of Ecotrel.

## **ARTICLE 16: Notifications and Domicile.**

Except where otherwise expressly specified, any notification that the Accession agreement requires to be delivered may be validly sent to the other party by registered mail with acknowledgement of receipt. The Parties are understood to have elected domicile at the address mentioned on the first page of this Accession agreement, for the entire duration of this agreement and for as long as they have not been informed in writing of the existence of any other address of residence.

## **ARTICLE 17: Modifications and amendments.**

**§1.** Any modification or amendment to this Accession agreement must be written out in full and signed by the delegates of the Parties duly authorized to do so.

**§2.** Any modification or extension of this Accession agreement is considered part of this Accession agreement.

§3. The appendices may be unilaterally modified by Ecotrel, and the modifications will come into effect the month after they are sent in writing, except where otherwise specified.

**ARTICLE 18: Conditions for the existence of this agreement.**

This accession agreement will only be validly constituted after approval by the Board of Directors of Ecotrel. As long as this condition is not fulfilled, the Co-contractor will not be a valid member and therefore may not claim any of the privileges open to members, especially vis-à-vis third parties and the relevant Authorities.

**ARTICLE 19: Appendices.**

The attached appendices are an integral part of this contract.

- Appendix 1: List of EEEs
- Appendix 2: Identification form
- Appendix 3: Declaration form
- Appendix 4: Communication form for commissioned foreign suppliers
- Appendix 5: General conditions for reimbursement of the recycling fee
- Appendix 6: Amounts for recycling fees

## **LIST OF EEES WITH RESTRICTIVE CRITERIA**

### **Categories of Electrical and Electronic Equipment**

- 1 Temperature exchange equipment
- 2 Screens, monitors, and equipment containing screens having a surface greater than 100 cm<sup>2</sup>
- 3 Lamps
- 4 Large equipment (any external dimension more than 50 cm)
- 5 Small equipment (no external dimension more than 50 cm)
- 6 Small IT and telecommunication equipment (no external dimension more than 50 cm)

**Note:** all appliances designed exclusively for professional use are considered professional

## **1. Temperature exchange equipment**

### **Criteria**

#### **1.1. Refrigeration appliances and absorption freezer appliances**

Absorption cool / freezer box	All cool and/or freezer boxes working on the absorption principle
Air conditioner	All movable appliances with power cord and plug and all fixed installation with an inner unity and outside unity with filled pipes, which are sold as an commercial unity and intend to be installed by the customer
Air dehumidifier	All appliances with weight < 40kg and power < 750 W with compressor or absorption system (without compressor or absorption system => category 5.3.)
Combination refrigerator and freezer appliance	All appliances with interior door fittings
Freezer - Chest	All models with single lid (more than one lid or no lid = no contribution)
Freezer - Upright	All models excepting those with transparent door and excluding those whose compressor is attached to the top of the appliance
Matress with air conditioning system	All appliances
Minifridge / Wine Minifridge / Bottlecooler / Winecooler	All Minifridge / Wine Minifridge / Bottlecooler / Winecooler with compressor or absorption system with the exception of minifridges intended exclusively for professional use (especially in hotels) and which are equipped with a lock (without compressor or absorption system => category 5.1.)
Refrigerator	All appliances with interior door fittings (except those with absorption system only with power supply of 230 volt)
Wine refrigerator / Wine temperature adjustment cupboard	All electrically wine temperature adjustment cupboard / cooled wine cellars

#### **1.2. Large appliances with heat pump**

Combination washing machine and dryer	All appliances with heat pump excepting those with multi-phase connection (more than 2 phase)
Tumble dryer	All appliances excepting those with multi-phase connection (more than 2 phase)

#### **1.3. Oil-filled heater**

Oil-filled heater	All appliances with a capacity < 5kW
-------------------	--------------------------------------

## **2. Screens, monitors, and equipment containing screens having a surface greater than 100 cm<sup>2</sup>**

#### **2.1. Monitors**

Monitor	All screens without tuner (excluding permanently built-in and integrated displays in operating panels and instrument panels)
---------	--

#### **2.2. Laptops, Tablets, Digital Photo Displays and Smart Displays**

Digital Photo Display	All appliances allowing only to view photos on a screen
Laptop / Netbook / Notebook / Tablet / E-Book computer	All Laptops / Netbooks / Notebooks/ Tablet / E-Book computers
Smart Display	All devices with loudspeakers, microphones and screens that respond to voice commands from people in the vicinity

### 2.3. Image reproduction appliances less or equal than 40 inches

Television / Monitor	All television screens / monitors with tuner converting television signals into images, including combination with TV/DVD/videorecorder/computer and "rear view" TV with size less or equal than 40 inches
----------------------	--

### 2.4. Image reproduction appliances larger than 40 inches

Television / Monitor	All television screens / monitors with tuner converting television signals into images, including combination with TV/DVD/videorecorder/computer and "rear view" TV with size larger than 40 inches
----------------------	---

### 2.5. Surveillance and monitoring equipment with screen

Monitoring instruments	All electrical appliances
------------------------	---------------------------

## 3. Lamps

### 3.1 Light sources

Compact fluorescent lamp	All lamps
Retrofit LED lamp	All lamps
Retrofit LED tube	All tubes
Plane fluorescent	All tubes

## 4. Large equipment

### 4.1. Large appliances

Combination washing machine and dryer	All appliances excepting those with multi-phase connection (more than 2 phase)
Dishwasher	All appliances excepting those with multi-phase connection (more than 2 phase), dishwasher with changeable basket and glasses washer
Electric cooker	All models with smallest plate < 2.9 kW
Gas cooker with electric/electronic heating element	All models with smallest burner < 3.5 kW
Ironing machine	All appliances excepting those with multi-phase connection (more than 2 phase)
Spin dryer	All appliances excepting those with multi-phase connection (more than 2 phase)
Solarium / Solar sky with overhead lamps	All electric appliances
Sunbed	All electric appliances
Tumble dryer	All appliances excepting those with multi-phase connection (more than 2 phase)
Washing machine	All appliances excepting those with multi-phase connection (more than 2 phase) and appliance fitted with coin operation

### 4.2. Medium-sized appliances

Combination oven (grill, microwave, ...)	All electric appliances
Cooker Hood	All appliances operating autonomously, including split appliances, (except appliances fitted with air ducts for central system)
Electric cooking or hot plates (multiple)	All appliances with a capacity of the smallest plate < 2.9kW
Electric Swing / Rocking Cradle	All electrical appliances with power cord and plug or battery

Gas cooking or hot plates (multiple)	All appliances with a capacity of the smallest burner < 3.5 kW with at least one electr(on)ic element is less than 3,5 kW
Microwave oven	All electric appliances
Mini washing machine / Portable washing machine	All electric appliances
Oven	All appliances with a capacity < 5 kW per oven space
Steam cleaner	All electric appliances
Stroller with electric assistance	All electrical appliances with power cord and plug or battery

#### 4.3. Big heaters and fans (any external dimension more than 50 cm)

Ceiling-mounted fan	All electric appliances with power cord and plug or battery
Mobile heater	All mobile appliances with power cord and plug (excl. oil-filled heater => category 1.3.)
Patio Heater	All electric appliances with power cord and plug or battery

#### 4.4. Big cleaning and sewing machines (any external dimension more than 50 cm)

Dust and/or water vacuum cleaner	All appliances with capacity of dust and/or water container < 10 litres and which need to be plugged on the main supply to execute their principal tasks, including suckin-up robots, rolling appliances and vacuum dustbin
Knitting machine	All electric appliances with power cord and plug
Weaving machine	All electric appliances with internal motor

#### 4.5. Big audio-visual devices and music instruments (any external dimension more than 50 cm)

Active loudspeaker / docking station	All active cabinets or loudspeakers including GSM / MP3 / MP4 / smartphone docking station and other appliances with wireless connection and without additional function. Exempted are loudspeaker cabinets equipped with jack, Speakon, XLR or SDI connector and those with transportation handles and with ceramic connectors or with spring clamps for building in or loudspeakers with metal grid or 100 Volt mains supply and any external dimension more than 50 cm
Battery charger	All battery chargers
Digital piano	All electric appliances
Electric guitar	All electric appliances
Electric organ	All electric appliances
Home theater set	Combinations of DVD + receiver + loudspeakers or DVD receiver + loudspeakers and any external dimension more than 50 cm
Passive loudspeakers	All passive cabinets or loudspeakers (including built-in). Exempted are loudspeaker cabinets equipped with jack, Speakon, XLR or SDI connector and those with transportation handles and with ceramic connectors or with spring clamps for building in or loudspeakers with metal grid or 100 Volt mains supply and any external dimension more than 50 cm
Satellite dish	All electric satellite dish without sending function and with diameter ≤ 1,20m and any external dimension more than 50 cm
Synthetiser	All electric appliances

#### 4.6. Big lighting equipment (any external dimension more than 50 cm)

Lighting devices or equipment designed to provide or control the light sources listed in category 3	All lighting devices except lighting devices for high intensity discharge lamps (pressure sodium, metal halide, low pressure sodium, mercury vapor)
---	---

**4.6.1. Big lighting equipment with 1 light source**

Lighting device with 1 light source	Lighting device as defined at point 4.6. with 1 light source
-------------------------------------	--

**4.6.2. Big lighting equipment with 2 light sources**

Lighting device with 2 light sources	Lighting device as defined at point 4.6. with 2 light sources
--------------------------------------	---

**4.6.3. Big lighting equipment with 3 light sources**

Lighting device with 3 light sources	Lighting device as defined at point 4.6. with 3 light sources
--------------------------------------	---

**4.6.4. Big lighting equipment with 4 light sources**

Lighting device with 4 light sources	Lighting device as defined at point 4.6. with 4 light sources
--------------------------------------	---

**4.7. Big electrical gardening equipment and electrical tools (any external dimension more than 50 cm)**

Brush cutter - Trimmer	All electric appliances with power cord and/or plug or battery
Chain saw	All electric appliances with power cord and/or plug or battery
Composter	All electric appliances with power cord and/or plug or battery
Dethatcher	All electric portable appliances with power $\leq 2,2$ kW
Garden tiller	All electric appliances with power cord and/or plug or battery
Grinder	All electric appliances with power cord and/or plug or battery
Hedge trimmer	All electric appliances with power cord and/or plug or battery
High pressure cleaner	All portable appliances and $\leq 2,2$ kW
Lawn aerator / corer	All electric appliances with power cord and/or plug or battery
Lawn mower / Robotic lawn mower	All electric appliances with power cord and/or plug or battery
Log saw	All electric appliances with power cord and/or plug or battery
Pruner	All electric appliances with power cord and/or plug or battery
Shrub shears	All electric appliances with power cord and/or plug or battery
Weed burner	All electrical appliances with wire and/or plug or battery
Wood splitting machine	All electric appliances with power cord and/or plug or battery

**4.8. Big toys, leisure and sports equipment (any external dimension more than 50 cm)**

Electric bikes, Pedelecs, e-Bikes	All electric 2-wheelers, bikes, pedelecs and e-bikes with a nominal continuous maximum power of less than 0.25 kW and/or whose assistance is limited to 25 km/h (without approval)
Self balancing scooter / Self balancing unicycle / Hoverboard / Electric skateboard / Electric scooter / Electric skates	All appliances
Sports equipment with electric or electronic components	All appliances which the primary function needs electrical energy
Other toys with battery	All toys which the primary function needs electrical energy
Other toys with accumulator	All toys which the primary function needs electrical energy
Other toys with power cord	All toys which the primary function needs electrical energy

## 5. Small equipment

### 5.1 Small heaters and fans (no external dimension more than 50 cm)

Cooling / Heating appliance	All appliances with a ceramic condenser operating on the Peltier principle and all beer pump for
Electric blanket	All electric appliances with power cord and plug or battery
Electric underblanket / Mattress warmers	All electric underblankets / mattress warmers with power cord and plug or battery
Heating appliance for baby	All appliance with power cord and plug
Heating cushion	All electric appliances with power cord and plug or battery including those for cars
Heating footrest	All electric mobile appliances with power cord and plug or battery
Hot water bottle	All electric appliances with power cord and plug or battery
Infrared heater	All mobile appliances
Minifridge / Wine Minifridge / Bottlecooler / Winecooler	All Minifridge / Wine Minifridge / Bottlecooler / Winecooler with the exception of minifridges intended exclusively for professional use (especially in hotels) and which are equipped with a lock and other than them from category 1.1. (without compressor)
Mobile radiant heater	All mobile appliances
Mobile heater	All mobile appliances with power cord and plug (excl. oil-filled heater => category 1.3.)
Neck Heating Pad	All electric appliances with power cord and plug or battery
Personal fan / Misting fan	All electric appliances with power cord and plug, including those for 12 Volt. The appliances working only on battery are in the category 5.3.
Steam generator for hammam	All steam generators for hammam with reservoir ≤ 20 L
Wall fan	All electric appliances with power cord and plug

### 5.2. Small cleaning and sewing machines (no external dimension more than 50 cm)

Dust and/or water vacuum cleaner	All appliances with capacity of dust and/or water container < 10 litres and which need to be plugged on the main supply to execute their principal tasks, including suckin-up robots, rolling appliances and vacuum dustbin
Oversew / Coverstitch machine	All electric appliances with internal motor
Sewing machine	All electric appliances with internal motor
Shoe brush	All electric appliances with power cord and plug and/or on batteries

### 5.3. Small household appliances

Active ironig board	All electric fold-up appliances with power cord and plug or battery
Acupuncture appliance	All electrical appliances with power cord and plug or battery
Air analyser	All electrical appliances with power cord and plug or battery
Air dehumidifier	All appliances with weight < 40 kg and power < 750 W without compressor and absorption system, with exception from the appliances in category 1.1.
Air humidifier	All electrical mobile appliances with power cord and plug or battery with water ≤ 20 L
Air purifier / Airing appliances	All electrical mobile appliances with power cord and plug or battery
Airbed with electric pump	All electrical appliances with power cord and plug or battery
Alarm clock	Only appliances with battery(ies), the plugged appliances are in category 5.4.
Animal collar (RF Technology)	All animal collar with battery working on Radio Frequency technology
Anti-cellulitis appliance	All electrical appliances with power cord and plug or battery
Anti-wrinkle appliance	All electrical appliances with power cord and plug or battery

Aromatherapy device	All electrical appliances with power cord and plug or battery
Automatic Dustbin	All electrical appliances with power cord and plug or battery
Automatic watch winder	All electrical appliances with power cord and plug or battery
Bad breath tester	All electrical appliances with power cord and plug or battery
Bag sealer	All electrical appliances with power cord and plug or battery with power rating $\leq 200$ Watt
Barbecue	All electrical appliances with power cord and plug or battery
Barbecue grill cleaner	All electrical appliances with power cord and plug or battery
Barbecue poker	All electrical appliances with power cord and plug or battery
Bark stopper	All electrical appliances with power cord and plug or battery
Beard trimmer	All electrical appliances with power cord and plug or battery
Beer brewing kettle	All electrical appliances with power cord and plug or battery
Blackhead remover vacuum	All electrical appliances with power cord and plug or battery
Blender	All electrical appliances with power cord and plug or battery
Boots, gloves, shoes dryer	All electrical appliances with power cord and plug or battery, including those with disinfectant function
Bottle opener	All electrical appliances with power cord and plug or battery
Bottle refresher	All electrical appliances with power cord and plug or battery operating on the Peltier principle and intended to refresh one only bottle
Bottle warmer / Cup warmer	All electrical appliances with power cord and plug or battery
Bread maker	All electrical appliances with power cord and plug or battery producing a maximum of 1 loaf simultaneously
Breathalyzer	All electrical appliances with power cord and plug or battery
Cake / Muffin / Pie / Tartelet maker	All electrical appliances with power cord and plug or battery
Can opener / Knife sharpener	All electrical appliances with power cord and plug or battery including combination appliances
Candy floss cloud machine	All electrical appliances with power cord and plug or battery
Candy machine	All electrical appliances with power cord and plug or battery
Candy grabber	All electrical appliances with power cord and plug or battery
Car seat base	All electrical appliances with power cord and plug or battery
Cat box	All electrical appliances with power cord and plug
Cellular stimulation device	All electrical appliances with power cord and plug or battery
Cereal bar maker	All electrical appliances with power cord and plug or battery
Cereal grinder	All electrical appliances with power cord and plug or battery
Cheese grater	All electrical appliances with power cord and plug or battery
Cheese maker	All electrical appliances with power cord and plug or battery
Child's potty	All electrical appliances with sound
Chocolate fountain / Chocolate maker	All electrical appliances with power cord and plug or battery
Chopper-grinder	All electrical appliances with power cord and plug or battery
Churros maker	All electrical appliances with power cord and plug or battery
Circulation booster	All electrical appliances with power cord and plug or battery
Clothes care appliance	All appliances for unwrinkling and/or refreshing clothes with steam
Cocktail machine	All electrical appliances with power cord and plug or battery
Coffee grinder	All electrical appliances with power cord and plug or battery with capacity $\leq 300$ gr
Coffee maker	All electrical appliances with power cord and plug or battery with water reservoir $\leq 2$ liters
Connected door for pet	All electrical appliances with power cord and plug or battery

Connected / thermometer fork	All electrical appliances with power cord and plug or battery
Corking machine	All electrical appliances with power cord and plug or battery
Cover unscrewed	All electrical appliances with power cord and plug or battery
Curler set	All electrical appliances with power cord and plug or battery
Curlig iron / Tongs	All electrical appliances with power cord and plug or battery
Cupcake / Madeleine / Popcake maker	All electrical appliances with power cord and plug or battery
Deep fat fryer	All electrical appliances with power cord and plug or battery ≤ 6 litres oil / fat (maximum usage capacity), including those which are built-in
Defrost device	All electrical appliances with power cord and plug or battery
Dentures and prosthesis cleaner	All electrical appliances with power cord and plug or battery
Depilatory kit	All electrical appliances with power cord and plug or battery (shaving, depilation, etc. + all appliances based on waxing technology and/or using electrolysis and/or using pulsed light)
Digital spoon scale	Only appliances with battery(ies)
Dish warmer	All electrical appliances with power cord and plug or battery, including those which are built-in
Disposable electric razor	All disposable electric and electronic razors
Disinfectant dispenser	All electrical appliances with power cord and plug or battery
Dog cookie maker	All electrical appliances with power cord and plug or battery
Dustbuster / Vacuum cleaners	All portable refillable appliances and used on the electrical network
Egg Boiler	All electrical appliances with power cord and plug or battery that boil maximum 8 eggs simultaneously
Electric anti-theft	All electrical appliances with power cord and plug or battery
Electric back scratcher	All electrical appliances with power cord and plug or battery
Electric cigarette	All electrical appliances with power cord and plug or battery including disposable appliances
Electric cleaning brush	All electrical appliances with power cord and plug or battery
Electric cookie press	All electrical appliances with power cord and plug or battery
Electric coucouspot	All electrical appliances with power cord and plug or battery
Electric heating lunchbox	All electrical appliances with power cord and plug or battery
Electric insoles	All electrical appliances with power cord and plug or battery
Electric kettle	All electrical appliances with power cord and plug or battery with a capacity ≤ 2.5 litres
Electric knife	All electrical appliances with power cord and plug or battery
Electric mouthwash and/or toothbrush and/or irrigator	All electrical appliances with power cord and plug or battery including combination mouthwash / Toothbrush
Electric razor	All electrical appliances with power cord and plug or battery
Electric shoe deodorizer	All electrical appliances with power cord and plug or battery
Electric skillet	All electrical appliances with power cord and plug or battery
Electric slimming pants	All electrical appliances with power cord and plug or battery
Electric wok	All electrical appliances with power cord and plug or battery
Electrical cigarette roller	All electrical appliances with power cord and plug or battery
Electronic pet door	All electrical appliances with power cord and plug or battery
Electronic moneybox	All electrical appliances with power cord and plug or battery
Ephemeral tattoo machine	All electrical appliances with power cord and plug or battery
Espresso maker	All electrical appliances with power cord and plug or battery with a capacity of maximum 40 cups per hour
Express cooker	All electrical appliances with power cord and plug or battery

Face cleaner / peeling	All electrical appliances with power cord and plug or battery
Facial cleanser	All electrical appliances with power cord and plug or battery
Facial mask machine	All electrical appliances with power cord and plug or battery
Facial massage appliance	All electrical appliances with power cord and plug or battery
Facial sauna	All electrical appliances with power cord and plug or battery
Facial tanner	All electrical appliances with power cord and plug or battery
Filling and bottling machine	All electrical appliances with power cord and plug or battery
Flairance diffusers / Air fresheners	All electrical appliances with power cord and plug or battery
Fondue set	All electrical appliances with power cord and plug or battery
Food processor	All electrical appliances with a capacity $\leq 7$ litres / 7 kg
Food waste dryer	All electrical appliances with power cord and plug or battery
Fountain for beverages and liquid food	All appliances with power cord and plug or battery, with weight $\leq 5$ kg empty
Fritter and donut machine	All electrical appliances with power cord and plug or battery
Frozen yoghurt maker	All electrical appliances with power cord and plug or battery
Fruit and vegetable peeler	All electrical appliances with power cord and plug or battery
Fruit squeezer	All electrical appliances with power cord and plug or battery
Fruit, herb, vegetable dryer	All electrical appliances with power cord and plug or battery
Gourmet set	All electrical appliances with power cord and plug or battery
Grill	All electrical appliances with power cord and plug or battery with power rating $\leq 2$ kW, including those which are built-in
Grill-stone	All electrical appliances with power cord and plug or battery
Gun cabinet / Safe / Secure cabinet	All electrical appliances with power cord and plug or battery
Hair colouring appliances	Only electrical appliances with battery(ies)
Hair dryer	All electrical appliances with power cord and plug or battery
Hair drying hood	All electrical portable appliances without stand with power cord and plug or battery
Hair trimmer	All electrical appliances with power cord and plug or battery
Hairstyler	All electrical appliances with power cord and plug or battery
Halogen cooker	All electrical appliances with power cord and plug or battery
Hamburger maker	All electrical appliances with power cord and plug or battery
Hand-held blender	All electrical appliances with power cord and plug or battery including rod, hand mixers, kneaders of which the handle/rod $\leq 30$ cm
Heated coat / gilet	All electrical appliances with power cord and plug or battery
Heated eyelash curler	All electrical appliances with power cord and plug or battery
Heated hair roller / shell curler	All electrical appliances with power cord and plug or battery
Heating appetizer appliance	All electrical appliances with power cord and plug or battery
Hotdog maker	All electrical appliances with power cord and plug or battery
Hot drink distributor	All electrical appliances with power cord and plug or battery
Hot plate for chicha, hookah, natural coal	All electrical appliances with power cord and plug or battery
Household cleaning products machine	All electrical appliances with power cord and plug or battery
Hypnosis mask	All electrical appliances with power cord and plug or battery
Ice maker / Ice grinder	All electrical appliances with power cord and plug or battery
Icing bag	All electrical appliances with power cord and plug or battery
Immersion heater	All electrical appliances with power cord and plug or battery

Incubator	All electrical appliances with power cord and plug or battery for home use
Individual clock	Only appliances with battery(ies)
Indoor fountain	All electrical appliances with power cord and plug or battery
Infrared cooker	All electrical appliances with power cord and plug or battery
Infra-red lamp	All electrical appliances with power cord and plug or battery
Insect killer / insect expeler / anti-insect	All insect killer / insect expeler / anti-insect with power cord and plug or battery including the appliances working with ultrasonic sound
Insect killer racket	Only appliances with battery(ies)
Insect killer with tablets and/or liquid	All electric insect killers with tablets and/or liquid
Ionic Comb	All electrical appliances with power cord and plug or battery
Ionic Steamer	All electrical appliances with power cord and plug or battery
Iron	All electrical mobile appliances with power cord and plug or battery
Jam cooker	All electrical appliances with power cord and plug or battery
Juicer	All electrical appliances with power cord and plug or battery with a processing capacity of maximum 3.5kg / 3 litres fruit / vegetables
Kitchen scales	All electrical appliances with power cord and plug or battery with a maximum capacity of 6 kg, including those which are built-in
Knife sharpener / Scissor sharpener	All electrical appliances with power cord and plug or battery including combination appliances
Lice comb	All electrical appliances with power cord and plug or battery
Luggage scale	All electrical appliances with power cord and plug or battery
Manicure and/or pedicure appliances	All electrical appliances with power cord and plug or battery
Mascara applicator	All electrical appliances with power cord and plug or battery
Massage cushion / top seat	All electrical appliances with power cord and plug or battery
Massage / Thalassotherapy / Shiatsu / appliances for feet	All electrical appliances with power cord and plug or battery
Massage / Shiatsu machine (including hydromassage)	All electrical appliances with power cord and plug or battery, net weight of the appliance < 1kg and/or with maximum 130 W power
Massaging / sleep glasses	All electrical appliances with power cord and plug or battery
Meat grinder	All electrical appliances with power cord and plug or battery with a power rating $\leq 1.3$ kW
Milk frother	All electrical appliances with power cord and plug or battery
Milkshake maker / Cocktailshake maker	All electrical appliances with power cord and plug or battery
Mini pizza oven	All electrical appliances with power cord and plug or battery
Mini steam cleaner	All electrical appliances with power cord and plug or battery that can be hand carried, excluding steam cleaner in category 4.2.
Mixture maker	All electrical appliances with power cord and plug or battery
Mobile radiation panel	All electrical mobile appliances with power cord and plug or battery
Mulled wine machine	All electrical appliances with power cord and plug or battery
Multi party (pancake party)	All electrical appliances with power cord and plug or battery with a power rating $\leq 2.5$ kW
Muscle stimulation device	Only appliances with battery(ies)
Nail dryer	All electrical appliances with power cord and plug or battery
Nose and ear hair trimmer	All electrical appliances with power cord and plug or battery
Oil maker	All electrical appliances with power cord and plug or battery
Omelette maker	All electrical appliances with power cord and plug or battery
Pacifier sterilizer	All electrical appliances with power cord and plug or battery

Pasta machine	All electrical appliances with power cord and plug or battery
Personal fan	Only appliances with battery(ies)
Personal scales	All electrical appliances with power cord and plug or battery including appliances with body fatmeter
Pet feeder / fountain	All electrical appliances with power cord and plug or battery
Phototherapy appliance (Bright light)	All electrical appliances with power cord and plug or battery
Pie and pizza maker	All electrical appliances with power cord and plug or battery
Pizza pan	All electrical appliances with power cord and plug or battery
Plancha	All electrical appliances with power cord and plug or battery
Plate warmer / Warming appliance	All electrical appliances with power cord and plug or battery with a power rating < 400 Watt and suitable for < 30 plates, including those which are built-in
Pocket sawing machine	Only appliances with battery(ies)
Popcorn maker	All electrical appliances with power cord and plug or battery
Pressure cooker / connected pot	Only equipments with a smart timer or connecting functions
Raclette maker	All electrical appliances with power cord and plug or battery
Rice cooker	All electrical appliances with power cord and plug or battery with a capacity ≤ 3.5 litres
Rotisserie kit	All electrical appliances with power cord and plug or battery
Salad spinner	All electrical appliances with power cord and plug or battery
Salamander grill	All electrical appliances with power cord and plug or battery
Salt / Pepper / Spice grinder	All electrical appliances with power cord and plug or battery
Samoussa maker	All electrical appliances with power cord and plug or battery
Sandwich / Panini maker	All electrical appliances with power cord and plug or battery
Sauce-boat	All electrical appliances with capacity ≤ 1 litre
Sauna belt	All electrical appliances with power cord and plug or battery
Self-warming Baby bottle	All electrical appliances with power cord and plug or battery
Simmer machine	All electrical appliances with power cord and plug or battery
Sleep aid appliance	All electrical appliances with power cord and plug or battery
Sleep analyzer	All electrical appliances with power cord and plug or battery
Slicing machine	All electrical appliances with power cord and plug or battery with knife diameter ≤ 190 mm
Slushie maker	All electrical appliances with power cord and plug or battery
Smart indoor garden	All electrical appliances with power cord and plug or battery
Smart water bottle	All electrical appliances with power cord and plug or battery
Smoothie maker	All electrical appliances with power cord and plug or battery
Snore mask	All electrical appliances with power cord and plug or battery
Soap dispenser	All electrical appliances with power cord and plug and/or on battery(ies)
Soda maker	All electrical appliances with power cord and plug or battery
Sorbet / Ice-cream maker	All electrical appliances with power cord and plug or battery with capacity ≤ 2 litres
Soup maker	All electrical appliances with power cord and plug or battery
Sous vide cooker	All electrical appliances with power cord and plug or battery
Stain remover pen	All electrical appliances with power cord and plug or battery
Steam iron with or without external steam generator	All electrical mobile appliances with power cord and plug or battery
Steame cooker	All electrical appliances with power cord and plug or battery
Steriliser	All electrical appliances with power cord and plug or battery suitable for maximum 12 baby bottles or other recipients, including appliances with beverage dispensing function

Stopwatch - Watch	All electrical appliances with power cord and plug or battery
Stove-top or hot plate (single)	All electrical appliances with power rating $\leq 2.9$ kW
Stove-top Teppan Yaki	All electrical appliances with power cord and plug or battery including those which are built-in
Sunless tanning lotion spray gun appliance	All electrical appliances with power cord and plug or battery
Tajin	All electrical appliances with power cord and plug or battery
Tea machine	All electrical appliances with power cord and plug or battery with water reservoir $\leq 2$ liters
Teeth whitening machine	All electrical appliances with power cord and plug or battery
Temperature control mug	All electrical appliances with power cord and plug or battery
Time-switch	All electrical appliances with power cord and plug or battery
Toasted sandwichmaker	All electric appliances with power cord and plug or battery that make a maximum of 4 toasted sandwiches simultaneously
Toaster	All electrical appliances with power cord and plug or battery that toast a maximum of 4 slices
Toothpaste dispenser	All electrical appliances with power cord and plug or battery
Tortilla maker	All electrical appliances with power cord and plug or battery
Trimmers / Grooming brush for animals	All electrical appliances with power cord and plug or battery
Ultrasonic cleaner	All electrical appliances with power cord and plug or battery that can be hand carried, intended to clean jewelry, coins, glasses, etc.
Ultrasonic stain remover	All electrical appliances with power cord and plug and/or on battery(ies) intended to clean clothes
Ultraviolet sterilizer	All electrical appliances with power cord and plug or battery
Vacuum sealer	All electrical appliances with power cord and plug or battery with power rating $\leq 200$ Watt
Vertical clothes steamer	All electrical appliances with power cord and plug or battery
Waffle iron	All electrical appliances with power cord and plug or battery with a power rating $\leq 2$ kW
Water filter / Limescale neutraliser	All electrical appliances with power cord and plug or battery with an ultraviolet light
Weather station	All electrical individual with power cord and plug or battery with which one or more atmospheric condition can be measured (temperature, atmospheric pressure, wind speed, humidity level,...)
Whirlpool carpet	All mobile electrical appliances with power cord and plug or battery
Windshield defroster	All electrical appliances with power cord and plug or battery
Window cleaning vacuum	All electrical appliances with power cord and plug or battery
Wine thermometer	All electrical appliances with power cord and plug or battery
Wool defuzzer	All electrical appliances with power cord and plug or battery
Yoghurt maker	All electrical appliances with power cord and plug or battery with a capacity $\leq 1.5$ kg

#### 5.4. Small audio-visual devices and music instruments (no external dimension more than 50 cm)

Active loudspeaker / docking station	All active cabinets or loudspeakers including GSM / MP3 / MP4 / smartphone docking station and other appliances with wireless connection and without additional function. Exempted are loudspeaker cabinets equipped with jack, Speakon, XLR or SDI connector and those with transportation handles and with ceramic connectors or with spring clamps for building in or loudspeakers with metal grid or 100 Volt mains supply
Alarm clock	All alarm clock operating on electricity
Alarm installation	All mobile alarm installation with battery or on main supply
Antenna / Distributing amplifier	All types of antenna / distributing amplifier
Antenna with incorporated amplifier	All fix or mobile antenna with power supply and incorporated amplifier
Antenna without incorporated amplifier	All fix or mobile antenna with power supply and without incorporated amplifier
Anti-drowsiness alarm	All appliances
Audio amplifier / Egaliser	All types of amplifiers for audio appliances except 19" rack version or appliances with 100 Volt output transformer or with XLR or SDI mono-bridge
Audio amplifier and DVD	All amplifiers (except the 19" rack version or appliances with 100 Volt output transformer with XLR, SDI or mono-bridge) and DVD
Audio and video converter / Hub / Switch / Splitter	All appliances
Audio sunglasses	All appliances
Baby Alarm	All movable baby alarms
Babyphone / Babytalker	Intercom mobil System (1 and/or 2 directions)
Bluetooth audio adapter	Only household appliances
Camera printer	Only appliances for printing photos ≤ 4 kg
Car audio / video item	All types of single audio modules with for example CD or MD or DVD or navigation system with built-in monitor smaller than 8" with or without voice guidance, CD, MD, DVD changer or memory card / radio / radio with cassette or CD or MD or DVD player or MP3 player or memory card, radio GSM module
Car audio / video package	All types of hi-fi systems for automobiles comprising multiple modules consisting of on the one hand radio, radio with cassette or CD or MD or MP3 player and on the other hand CD or MD or DVD changer or GPS (with separate screen smaller than 8" or with voice guidance) and/or equaliser and/or amplifier
Car audio amplifier / Egaliser	Amplifier and/or equaliser for audio appliances for building in automobiles (except with microphone input)
CD / CD-MP3 / Mini-disc player	All portable devices
CD, DVD, Blu-ray reparation/cleaning device	All appliances
Citizen Band (CB) Radiotransmitter	CB (Citizen Band) Radiotransmitter
Digital Video Converter	All personal digital video converters
Docking station	All docking station sold separately
Drum	All electric appliances

DVD / HD DVD/ Blu ray/ Digital Player,Recorder	Appliance for the recording and reproduction of sound and/or television images with DVD, HD DVD, Blu-ray, hard-disc as storage medium except the 19" rack version or for surveillance purpose less than 24 hours recording
Electric field glass / Telescope / Night glass	All movable electric field glasses / telescopes / night-glasses (except appliances with fixed position)
Electronic fabric	All fabrics equipped with an electronic component for the reproduction of sound and/or image
Grip control	All appliances designed to control a camcorder
Guitar pedal and appliances to tune them in	All appliances
Hands-free kit	All portable or incorporated hands-free kits sold separately
Hard-disc recorder	All hard-disc recorders / players and combinations with other applications except with XLR, SDI or for surveillance purpose less than 24 hours recording
Headphone with wire or wireless	All wire or wireless headphones except systems with XLR connector
Intercom system	All mobile intercom systems (1 and/or 2 directions)
Keychain locator	All keychain notably designed to locate a vehicle in a parking
Laser disc player	Appliance for the reproduction of text, sound and/or television images with laser disc as storage medium
Laser Pointer	All appliances sold separately
Meditation and sophrology box	All appliances
Megaphone	All megaphones
Microphone	All microphones except appliances with XLR or SDI
Mini, midi and micro audio system	So-called hi-fi towers in various sizes (with or without loudspeakers), sold as one item with a single power cord including multifunctional systems intended to plug an GSM / MP3 / MP4 / smartphone and those with wireless connection
MP3 / MP4 Player	All portable devices
MP3 FM Transmitter	All transmitters to play music from an MP3 player or memory card on a car radio or tuner from a hifi with a radio frequency
Multimedia network player	Devices playing multimedia files from a computer to a television.
Passive loudspeakers	All passive cabinets or loudspeakers (including built-in). Exempted are loudspeaker cabinets equipped with jack, Speakon, XLR or SDI connector and those with transportation handles and with ceramic connectors or with spring clamps for building in or loudspeakers with metal grid or 100 Volt mains supply
Photo camera (analog)	All analog photo cameras (included disposable appliances when they are not collected and recycled by the manufacturer / importer)
Photo camera (digital)	All digital photo cameras
Pocket alarm	Only appliances with battery(ies)
Portable radio and audio appliances	All portable radio and audio appliances including MP3
Portable radio without built-in loudspeakers / Scan radios	Portable radio without built-in loudspeakers and with only earphones
Portable system for reproduction of sound and images with battery or operating on 12 volts	All system for reproduction of sound and images (TV, video, DVD, HD DVD, Blu-ray, etc.) with or without incorporated screen working on battery or on 12 volts plug (including car devices)
Power adapter / Charger	All power adapter / charger sold separately including solar and induction devices
Presence / Television simulator	All appliances designed to simulate a presence in a home
Radio / Tuner / TV Receiver	Appliance for receiving radio and/or TV signals encrypted or not encrypted (receiver / set top box and only with fixed mains supply), except the 19" rack version, with XLR or SDI connector or appliances with 100 Volt output transformer
Radio alarm clock	All radio alarm clock operating on batteries / electricity including appliances with sunrise and olfactory simulation function

Record player	Appliance for playing records, except records players with weight ≤ 5 kg
Remote control	All remote control units sold separately
Satellite / Terrestrial / Demodulateur receiver	Receiver / Demodulator which can decipher terrestrial signals (DVB-T...) and/or satellites, except 19" rack mountable
Satellite dish	All electric satellite dish without sending function and with diameter ≤ 1,20m
Satellite finder	All appliances
Slide projector	Analogue projectors
Soundmixer / Mixing board	Switchboard for controlling the sound coming from various sources before it is routed to an amplifier, loudspeaker or computer except all appliances with minimum 50% mono inputs or the 19" rack version or larger, with XLR or SDI connector
Talkie-Walkie	All talkie-walkies
Tape / Cassette / CD / MD player / Recorder	Appliance for recording and reproducing sound with Tape / Cassette/ CD /MD as storage medium, except 19" rack version and appliances with pitch control and XLR or SDI connector
TV Box / Streaming media player	All connected television devices offering Internet browsing, streaming of content and the use of dedicated appliances
Video / 3D glasses	All video / 3D glasses
Video camera	Camera for making video recordings
Video editing equipment / Video and sound mixer	Switchboard for mixing sound and recorded image sequences coming from various sources except all appliances with minimum 50% mono inputs or the 19" rack version or larger, with XLR or SDI connector
Video player / Recorder, Combination Video player / Recorder and DVD, Blu-ray player / Recorder	Appliance for the recording and reproduction of sound and/or television images with video cassette as storage medium, including appliances combined with DVD, Blu-ray player / Recorder (except appliances explicitly intended for surveillance purposes, time laps)
Video printer	Appliances for printing video images ≤ 4 kg
Videophone	All mobile appliances which can transmit in real time sound and images from one set (ex: inside set) to an other set (ex: outside set)
White noise machine	All appliances
Wireless audio and/or video receiver / transmitter	All devices for household use

#### **5.5. Small lighting equipment (no external dimension more than 50 cm)**

Lighting devices or equipment designed to provide or control the light sources listed in category 3	All lighting devices except lighting devices for high intensity discharge lamps (pressure sodium, metal halide, low pressure sodium, mercury vapor)
---	---

##### **5.5.1. Small lighting equipment with 1 light source**

Lighting device with 1 light source	Lighting device as defined at point 5.5. with 1 light source
-------------------------------------	--

##### **5.5.2. Small lighting equipment with 2 light sources**

Lighting device with 2 light sources	Lighting device as defined at point 5.5. with 2 light sources
--------------------------------------	---

**5.5.3. Small lighting device with 3 light sources**

Lighting device with 3 light sources	Lighting device as defined at point 5.5. with 3 light sources
--------------------------------------	---

**5.5.4. Small lighting device with 4 light sources**

Lighting device with 4 light sources	Lighting device as defined at point 5.5. with 4 light sources
--------------------------------------	---

**5.6. Small electrical gardening equipment and electrical tools (no external dimension more than 50 cm)**

Aeration pump for pond	All electric appliances with power cord and/or plug or battery
Angle sleeker/spatula	All electric appliances with power cord and/or plug or battery
Aquarium / Terrarium accessories	All electric appliances with power cord and/or plug or battery
Band saw	All electric appliances with power cord and/or plug or battery
Belt/strip sander	All electric appliances with power cord and/or plug or battery
Bolting machine	All electric appliances with power cord and/or plug or battery
Brush cutter - Trimmer	All electric appliances with power cord and/or plug or battery
Burnishing machine	All electric appliances with power cord and/or plug or battery
Cable churn drill - impact drill	All electric appliances with power cord and/or plug or battery
Beam, cable, humidity, metal, thermo detector	All electric appliances with power cord and/or plug or battery
Cable cutter	All electric appliances with power cord and/or plug or battery
Car polisher	All electric appliances with power cord and/or plug or battery
Chain saw	All electric appliances with power cord and/or plug or battery
Chipping or demolition hammer	All electric appliances with power cord and/or plug or battery
Circular saw	All electric appliances with power cord and/or plug or battery
Composter	All electric appliances with power cord and/or plug or battery
Compressor	All electric compressors with tank volume ≤ 10 liter
Concrete Planer	All electric appliances with power cord and/or plug or battery
Copying milling cutter	All electric appliances with power cord and/or plug or battery
Dethatcher	All electric portable appliances with power ≤ 2,2 kW
Diamond core drill for wet and dry drilling	All electric appliances with power cord and/or plug or battery
Digital tape measure	All electric appliances with power cord and/or plug or battery
Disc harrow	All electric appliances with power cord and/or plug or battery
Drill	All electric appliances with power cord and/or plug or battery
Drum sander	All electric appliances with power cord and/or plug or battery
Drywall pole sander	All electric appliances with power cord and/or plug or battery
Earth auger	All electric appliances with power cord and/or plug or battery
Edge trimmer (nylon)	All electric appliances with power cord and/or plug or battery
Electric concrete mixer	All electric appliances with power cord and/or plug or battery
Electric hammer	All electric appliances with power cord and/or plug or battery
Electric hoist	All electric appliances with power cord and/or plug or battery
Electronic welding mask	All electric appliances with power cord and/or plug or battery
Engraving device	All electric appliances with power cord and/or plug or battery
Evacuation pump	All electric appliances with power cord and/or plug or battery
Flooring cutter	All electric appliances with power cord and/or plug or battery

Glue gun	All electric appliances with power cord and/or plug or battery
Grass shears	All electric appliances with power cord and/or plug or battery
Grinder	All electric appliances with power cord and/or plug or battery
Heat gun	All electric appliances with power cord and/or plug or battery
Hedge trimmer	All electric appliances with power cord and/or plug or battery
High pressure cleaner	All portable appliances and $\leq 2,2$ kW
Hot wire cutting tool	All electric appliances with power cord and/or plug or battery
Impact wrench	All electric appliances with power cord and/or plug or battery
Injection gun	All electric appliances with power cord and/or plug or battery
Inspection camera	All electric appliances with power cord and/or plug or battery
Jackhammer	All electric appliances with power cord and/or plug or battery
Jigsaw	All electric appliances with power cord and/or plug or battery
Jointer	All electric appliances with power cord and/or plug or battery
Laser level / Laser receiver	All electric appliances with power cord and/or plug or battery
Laser telemeter	All electric appliances with power cord and/or plug or battery
Lawn aerator / corer	All electric appliances with power cord and/or plug or battery
Lawn mower / Robotic lawn mower	All electric appliances with power cord and/or plug or battery
Leaf blower / Vacuum sweeper	All electric appliances with power cord and/or plug or battery
Log saw	All electric appliances with power cord and/or plug or battery
Measuring wheel	All electric appliances with power cord and/or plug or battery
Metal saw with blade	All electric appliances with power cord and/or plug or battery
Minitool (proxon-dremel)	All electric appliances with power cord and/or plug or battery
Mitre saw	All electric appliances with power cord and/or plug or battery
Mixer	All electric appliances with power cord and/or plug or battery
Mole expeler	All electric appliances with power cord and/or plug or battery
Multifunctional machine	All electric appliances with power cord and/or plug or battery
Nibbler	All electric appliances with power cord and/or plug or battery
Orbital rotor sander	All electric appliances with power cord and/or plug or battery
Orbital sander	All electric appliances with power cord and/or plug or battery
Paint gun	All electric appliances with power cord and/or plug or battery
Paint roller	All electric appliances with power cord and/or plug or battery
Paint stripper	All electric appliances with power cord and/or plug or battery
Pipeline unblocker	All electric appliances with power cord and/or plug or battery
Plane	All electric appliances with power cord and/or plug or battery
Plane for concrete	All electric appliances with power cord and/or plug or battery
Plant sensor	All electric portables appliances with power cord and/or plug or battery
Pond pump / Fountain pump	All electric appliances with power cord and/or plug or battery with flow rate $\leq 9000$ litres/hour and a capacity $\leq 1,5$ kW
Power generator	All electricity-producing appliances with a power of $\leq 4$ KVA
Power pack	All electric appliances with power cord and/or plug or battery
Pruner	All electric appliances with power cord and/or plug or battery
Pruning shears	All electric appliances with power cord and/or plug or battery
Rechargeable air pump	All electric appliances with power cord and/or plug or battery

Reciprocating saw / Pendulum saw / Sword saw	All electric appliances with power cord and/or plug or battery
Right grinder	All electric appliances with power cord and/or plug or battery
Rotary disc cut-off machine	All electric appliances with power cord and/or plug or battery
Router plane	All electric appliances with power cord and/or plug or battery
Screw gun	All electric appliances with power cord and/or plug or battery
Shears	All electric appliances with power cord and/or plug or battery
Shrub shears	All electric appliances with power cord and/or plug or battery
Sprayer	All electric appliances with power cord and/or plug or battery
Spreader	All electric appliances with power cord and/or plug or battery
Stapler / Nail machine	All electric appliances with power cord and/or plug or battery
Steel rod cutter	All electric appliances with power cord and/or plug or battery
Straight wheel grinder	All electric appliances with power cord and/or plug or battery
Table circular saw	All electric appliances with power cord and/or plug or battery
Tapping machine	All electric appliances with power cord and/or plug or battery
Threaded rod cutter	All electric appliances with power cord and/or plug or battery
Three-sided sander	All electric appliances with power cord and/or plug or battery
Tiles cutter	All electric appliances with power cord and/or plug or battery
Torque wrench	All electric appliances with power cord and/or plug or battery
Transfer pump	All electric appliances with power cord and/or plug or battery
Tyre pressure controller	All electric appliances with power cord and/or plug or battery
Tyre pump	All electric appliances with power cord and/or plug or battery
Universal cutter	All electric appliances with power cord and/or plug or battery
Vacuum and/or blower	All electric appliances with power cord and/or plug or battery
Vacuum cleaner for electrical tools	All electric appliances with power cord and/or plug or battery
Void unwelding station	All electric appliances with power cord and/or plug or battery
Voltage inverter	All voltage inverters with capacity $\leq 5$ kW peak capacity
Wallpaper steamer	All electric appliances with power cord and/or plug or battery
Water and or air pump for inflatable, portable and fixed whirlpool	All electric appliances with power cord and/or plug or battery sold separately
Welding iron / unwelding iron	All electric appliances with power cord and/or plug or battery
Welding machine (single-phase)	All movable single-phase welding appliances
Well pump	All electric appliances with power cord and/or plug or battery with flow rate $\leq 9000$ litres/hour and a capacity $\leq 1,5$ kW
Wood splitting machine	All electric appliances with power cord and/or plug or battery

**5.7. Small toys, leisure and sports equipment (no external dimension more than 50 cm)**

Computers for biking, diving, running, rowing, etc.	All appliances which the primary function needs electrical energy
Drone	All appliances
Electric trains or car racing sets	All toys which the primary function needs electrical energy
Gadgets	All gadgets which the primary function needs electrical energy
Hand-held video game consoles	All toys which the primary function needs electrical energy
Sports equipment with electric or electronic components	All appliances which the primary function needs electrical energy
Other toys with battery	All toys which the primary function needs electrical energy
Other toys with accumulator	All toys which the primary function needs electrical energy
Other toys with power cord	All toys which the primary function needs electrical energy

**5.8. Medical equipment for domestic use**

All electric household medical appliances	Glucometer, thermometer, inhaler, tensiometer, ...
---	--

**5.9. Surveillance and monitoring equipment**

Heating regulators	All electrical appliances
Smoke detector (excepted those with ionic detector)	All autonomous detectors (not binded to a station and excepted those with ionic detector)
Thermostats	All electrical appliances
Measuring, weighing or adjusting for household or as laboratory equipment	All appliances with weight ≤ 200gr

**6. Small IT and telecommunication equipment (no external dimension more than 50 cm)****6.1. Complete personal computers**

Complete Personal Computer (case + keyboard + mouse)
--

**6.2. Personal computers (without peripherals)**

Computer case	All computer case (tour or box) with incorporated supply, with or without other computers components assembled (barebones)
Desktop Personal Computer	All computers and/or workstations (network) designed for use at home and in a professional environment (including multimedia homecenter, thin clients, NUC, Mini-PC, internal parts such as CD-ROM drive, floppy drive, etc.) except servers, rack mountable appliances and appliances for transmission of public information

**6.3. All-in-one devices / Fax / Hard-copy printers / Photocopiers**

3D Printer	All 3D printers with no external dimension more than 50 cm
Copying device / All-in-one device	All one purpose copying and/or All-in-one devices with no external dimension more than 50 cm
Fax machine	All one purpose fax machines with no external dimension more than 50 cm
Printer	All single-function printers with no external dimension more than 50 cm

#### 6.4. Small IT equipment and telecommunication devices

3D Pen	All household appliances
3D Scanner	All household appliances
Answering machine	All automatic answering machines
Augmented reality glasses / Geo-locatable glasses / Virtual reality headset	All augmented reality glasses and virtual reality headset able to include a camera, a microphone, a touch pad, mini-screens and Internet access via Wi-Fi or Bluetooth and geo-locatable glasses
Calculator with or without printing facility	All types of calculator powered by mains, batteries or solar energy with or without printing facility
Card Reader	All external devices for the reading of cards such as bankcards, identity cards for household use
Code generator	All appliances, solar, battery and power supply via USB to generate codes for internet use, including banking
Computer / Video game console / Smartphone / Tablet / TV keyboard	All keyboards, keypads, Bluetooth keyboards, keyboard case, designed for use with video game consoles, PC, PDA, Pocket PC, smartphones, tablets, TVs with or without electronic payment and/or scanning system
Computer loudspeakers	All loudspeakers sets designed for computer applications
Computer mouse, pointing, game device	All types of computer mice, joysticks, gamepads, balance boards, trackballs, graphic tablets
Dictaphone	All IC, digital and magnetic tape recorders powered by mains or batteries or both
Digital photo display keyring	All devices
Digital white board	All mobile and fixed appliances
External drive, wifi routers, etc.	All external writer, burner, back-up devices (CD-ROM, CD-R/RW, DVD, ZIP, Blu-ray, HD DVD, HDD case, HDD dock, NAS case, etc.) designed for use with a computer (with also reader / recorder on memory cards - excluding USB sticks and memory cards)
Foot pedal for dictating machines	All foot pedals for dictating machines with separate power supply
Game capture device	All external boxes to record a video game
Games computer	All game consoles with minimum 32-bit microprocessor
GPS/ navigation/ geolocalisation / driving assistance units	All portable GPS units with built-in screen with or without voice guidance including geolocalisation, navigation systems and driving assistance systems used in vehicles
GSM (mobile telephone) / Smartphone	All mobile telephones / smartphones (including all possible combinations with calculator, organiser, GPS, etc.)
Handheld computer / PDA / Pocket PC / Organiser	All portable computers / notebook / PDA / Pocket PC (including computers with built-in printer and transmission, calculators, GPS,...)
Haptic costume	All devices for virtual reality
Home telephone exchange	All telephone exchanges and base stations (fixed or mobile) to which maximum 6 fixed and/or wireless telephones can be connected
Hubs / Switches / Routers / Modems / Access Points / Streamer / Printserver / Repeater / Gateway	All hubs/switches/routers/modems/access points / streamer / printservers / repeater / gateway for household use with maximum 6 out-ports using different technologies wireless, ADSL, DSL, cable or other, even if the functions are combined or not, including appliances with cloud functions
Laminating machine / Binding machine	All mains-powered laminating machines for binding bundles of paper or books, covering and/or laminating and with weight $\leq 5$ kg
Laptop / Notebook / Netbook cooler	All appliances with separate power supply
Message reporter	All devices that give out a signal (light, sound, etc.) on receipt of a message (such as e-mail) with separate power supply
Motion detection peripheral device	All motion detection devices connected to a game console or computer and intended to be essentially used with video games

NFC appliances	All separately sold NFC (Near Field Communication) appliances for contactless data transmission that use the ISM frequency band of 13.56 MH)
Other devices working on the USB port	Cup heater, vaccum cleaner, video converters, virtual glasses, analog/digital converters and other devices working on the USB port
Paper shredder	All paper shredding appliances with weight ≤ 10 kg (not including paper container)
Pencil sharpener	All pencil sharpeners on main supply or batteries
Portable tape converter	All devices for digitizing audio tapes
Power bank	All power banks for smartphones, tablets, laptops etc.
Powerline Ethernet	All powerline ethernet adaptators which turns any electrical outlet into a network connection
Presentation remote	All appliances
Projector	All projectors with weight ≤ 6 kg
Reading Device	All appliances that autonomously convert printed text into spoken language
Scanner	All one purpose scanners with weight ≤ 5 kg and designed for use as computer peripherals
Scanning pen	Scanning pen for scanning texts and transporting information using infrared, USB or serial port in real time electronically to the computer, PDA or mobile phone, with or without the option of storing data temporarily
Security camera / IP, Wifi, 3G, action camera	All security, IP, Wifi, 3G action cameras
Selfie stick / stabilizer	All appliances for smarthones
Slide / Negative / Super 8 and 8mm film scanner	All appliances with weight ≤ 5 kg
Slide / Projector screen	All electric slide/projector screen
Smart speaker	All devices with loudspeakers and microphones that respond to voice commands from people in the vicinity
Smartwatch and jewelry / Activity tracker	All appliances
Stapler (for office use)	All staplers on mains supply or batteries
Telephone	All fixed sets that operate as standalone units or connected to home telephone exchanges, including all cordless phones working with a local station/DECT, VOIP telephones and USB phones
UPS - Nobreak	All uninterruptable power systems for computers
Wearable	All electronic appliances that are worn on the body by the user (e.g. also as part of clothing) and that serve to convey time, communication, GPS, the use of applications, monitoring bodily functions monitoring bodily functions and sports performances, regulation of clothing temperature, etc. A wearable combines several of these, and/or other, functions in a single appliance
Webcam	All web cameras
Wifi Antenna	All wifi antennas for routers sold seperately

## **General Conditions for reimbursement of recycling fees paid by members of Ecotrel.**

### **1. Coverage**

This document contains the General Conditions under which Ecotrel may grant the refund of recycling fees paid. Ecotrel may make modifications to these General Conditions unilaterally. Any modification made comes into effect after a minimum delay of fifteen days following its publication on the Internet. The updated version of the General Conditions can be found at the following address: <http://www.ecotrel.lu>

The Co-contractor will be informed of any modification made to these conditions by ordinary or electronic mail.

By introducing an application for reimbursement of recycling fees, the Co-contractor attests that it accepts the following General Conditions.

### **2. Right to reimbursement of recycling fees**

The Co-contractor may claim a refund:

- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs it subsequently exported.
  - o This claim may be made provided that:
    - at the time the EEEs were placed on the market, a recycling fee was paid to Ecotrel through the execution of an accession agreement or that
    - the Co-contractor paid the recycling fee for these EEEs to its supplier and that
    - the Co-contractor is able to demonstrate to Ecotrel that the EEEs were indeed exported (for instance, by producing the relevant exportation or transportation documents).
  
- Of the recycling fees paid to Ecotrel or to its supplier upon acquisition of any EEEs which it used in any way other than that provided for in the official list of EEEs under the Grand-Ducal regulation (for instance, using them to assemble new appliances, or transforming them in any way during their manufacture, to produce new appliances).
  - o This claim may be made provided that:
    - at the time the EEEs were placed on the market, a recycling fee was paid to Ecotrel through the execution of an accession agreement or that
    - the Co-contractor paid the recycling fee for these EEEs to its supplier and that
    - the Co-contractor is able to convincingly demonstrate to Ecotrel that the EEEs were indeed used in a way other than that provided for in the official list of EEEs under the Grand-Ducal regulation.

- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs which it subsequently sold to a consumer, and for which the Co-contractor must pay foreign VAT, even though this transaction is not exempt from VAT in Luxembourg on account of exportation.
  - o This claim may be made provided that:
    - at the time the EEEs were placed on the market, a recycling fee was paid to Ecotrel through the execution of an accession agreement or that
    - the Co-contractor paid the recycling fee for these EEEs to its supplier and that
    - the Co-contractor is able to convincingly demonstrate to Ecotrel that the EEEs were indeed sold outside of Luxembourg Territory.
  
- Of recycling charges paid to Ecotrel or its supplier on acquisition of any EEEs which it was subsequently obliged to return due to their defective condition.
  - o This claim may be made provided that:
    - at the time the EEEs were placed on the market, a recycling fee was paid to Ecotrel through the execution of an accession agreement or that
    - the Co-contractor paid the recycling fee for these EEEs to its supplier and that
    - The Co-contractor is able to prove to Ecotrel by producing a credit note, that it indeed took back the defective appliances.

### **3. Declaration**

Le Co-contractor may submit an application for reimbursement of the Recycling fee to Ecotrel by means of the declaration form on a quarterly or annual basis, depending on its usual declaration system.

### **4. Annual attestation**

The annual attestation the Co-contractor must produce in the context of its regular declarations of commercialization also covers the declarations of refund of the recycling fee. This attestation must be signed for approval by the person legally responsible for the Co-contractor.

### **5. Exhaustion of the entitlement to a refund**

Unless otherwise agreed in writing by the Parties, the Co-contractor's right to reimbursement of recycling fees and to recycling fees paid to it, is considered void:

- if, at the latest on the 28th February each year, Ecotrel, has not received any annual attestation concerning the reimbursement of recycling fees, for which it became possible to submit a claim during the previous calendar year;
- if the information or documents submitted by the Co-contractor do not carry sufficient weight to support the claim for reimbursement of recycling fees, either because they contain errors or flaws that may have an impact, whether direct or indirect, on the reimbursement of recycling fees.

Where applicable, Ecotrel may demand that the Co-contractor pay back any refunded recycling fees (via a net calculation or not). The recycling fees thus demanded will be subject,

without prior notice, to additional interest totalling the legally applicable interest rate plus 3%, calculated from the date at which these recycling fees were refunded to the Co-contractor.

## **6. Suspension of reimbursement**

Ecotrel has the right to suspend reimbursement of recycling fees if:

- the sum of recycling fees for which a refund has been claimed by the Producer or the Importer during the previous 12 months exceeds 2000 €, or if
- Ecotrel believes that the application for reimbursement of recycling fees is incorrect and/or fraudulent, or for any other serious and valid reason.

Ecotrel will nonetheless pay these recycling fees to the Producer or Importer immediately, when it is proved that the application for reimbursement is indeed valid and compliant with the General Conditions.

## **7. Refund, Invoicing**

- 7.1. The Co-contractor may claim a refund of the amount paid in recycling fees to Ecotrel at the time of placing an EEE on the market.
- 7.2. Ecotrel agrees to send to the Co-contractor, within the time allowed under article 8, §3 of the Accession agreement, an invoice including a net calculation of the recycling fees due for payment and for refund, as stipulated in these General Conditions.

Amount due in Recycling fees for 2005-2006 VAT not included

		EEE Categories	Charge €/unit VAT not included
1	1.1	Refrigeration appliances	16,00
	1.2	Large appliances	5,25
